## Performance Gearboxes

NZ Drift Focus

New Zealander, Gaz Whiter recently won Round 4 of the New Zealand Drift Championship and is now on his way to the USA for the world titles.

Recently Gaz fitted the PPG SR20 1st to 4th Helical Dog set to his Nissan Silvia Drift car and has not looked back since. PPG manufactures Dog sets to suit the SR20 5 speed casing and the Skyline 5 speed gearbox. Both enable clutchless shifting and instant gear selection at any speed combined with increased strength.
