*G1 Championship Win for PPG
SR20 Dog Set Product*

Last weekend proved 3rd time lucky for local hero Tom Monkhouse who has been runner up in the South Australian G1 Drift Championship for the last 2 years.

Tom won the round and the Championship in his brother's car which uses the PPG 1st to 4th Helical Dog Set to suit SR20 gearbox. Tom's personal car also utilises the PPG product but is receiving paintwork ready for next season.

The PPG product has been an integral part of Toms success on a local level and his strong finish in the National Championship.
